

Friends of Smart Growth and Sustainable Communities is a diverse group of national organizations including:

- American Farmland Trust
- American Planning Association
- The Cloud Institute for Sustainability Education
- CONCERN, Inc.
- The Conservation Fund
- National Association of Counties
- National Association of Realtors®
- Smart Growth Network

We have come together to create the Sustainable Schoolyards exhibit and website with the assistance of Bay Tree Design, inc. who provided the eco-schoolyard conceptual framework and developed the design for this exhibit.

The demonstration display is part of the [*One Planet—Ours!*](#) exhibit, which can be viewed at the U.S. Botanic Garden in Washington, D.C. from May 24–October 13, 2008.

CONCERN, Inc.
