

One Planet—Ours!

Sustainability for the 22nd Century

U.S. Botanic Garden • Washington, D.C.

The Sustainable Schoolyard exhibit is on the east side of U.S. Botanic Garden, at number 11 on this map.

The blue dots throughout the map indicate locations for the The Cool Globes exhibit, which is also on display.

The Friends of Smart Growth and Sustainable Communities, a coalition of national organizations, installed the Sustainable Schoolyard as part of the U.S. Botanic Garden's summer sustainability exhibit, One Planet—Ours! This special outdoor learning environment demonstrates the multiple benefits of ecological or green schoolyards for education and play. It has been designed by Bay Tree Design, Inc. of Berkeley, CA.

The exhibit is open and free to the public from May 24–October 13, 2008 at 100 Maryland Avenue, SW at the west side of the U.S. Capitol.

For more information visit the Sustainable Schoolyard website at www.sustainableschoolyard.org.
